## BBT Briefing Bulletin 10 (December 2015)

### CONTENTS

**Section A – Information to share with BBT Trainees and ES**

**Section B – Information for Faculty (including TPD, Supervisors, MEMs, LFG Admin and others supporting BBT in the employing and host Trusts and GP practices)**

**Section C – General Information**

**Section D - Conference/events/courses**

### Section A – Information to share with BBT Trainees and ES

*(Dear Supervisor – PLEASE share the content of the bulletin with your trainee)*

#### **BBT recruitment 2016**

Health Education England has informed us that they will not be offering Broad Based Training for the 2016 recruitment round. HEKSS was not planning to recruit for 2016 so this decision will have no immediate impact on our current programme or the trainees. Our current BBT trainees will continue their programmes and develop their BBT competencies. We understand there will be a review of specialty training programmes later this year where consideration will be given to the nature and type of training needed to support the development of the NHS and the new models of working proposed in the Five Year Forward View.

The two trainee representatives on the national BBT Governance Group, Dr Anna Rose Morris and Dr Kitty Jackson have written in response to the BMJ article about the closure of recruitment to BBT. The article is available at

<http://careers.bmj.com/careers/advice/view-rapid-responses.html?id=20026323>.

#### **Timeline for assessments**

A reminder that all assessments for the current BBT placement and end of placement review with ES should be completed by 29<sup>th</sup> January 2016. Please also ensure Equality and Diversity mandatory training is completed by this date. See [Assessments Timelines](#) for more information.

#### **10% Specialty: 2<sup>nd</sup> – 18<sup>th</sup> December 2015**

BBT Trainees have just completed their 10%. As this is an opportunity to explore a different specialty and the integration between BBT specialties, please document your learning. The trainees should write at least one learning log about their 10%. You are also required to complete a CBD demonstrating a case crossing two specialties.

#### **Trainee feedback**

HEKSS places great importance on the feedback it receives from trainees about the placements that they have experienced. This feedback is essential to the development of Educational and Clinical Supervisors, both in hospital and in general practice, and to the training placement in HEKSS.

We would like to hear from you about your current placement (August 2015-February 2016). Please complete the online feedback questionnaire at the following link: <https://hekss.onlinesurveys.ac.uk/bbt-year->

[1-post-1-aug-2015-jan-2016](#)

### Change to BBT Admin staff at HEKSS

As many of you are aware, Sarah Swan left her role with the GP Team in October. The GP Training team is now supporting BBT. Please direct all queries to [gptrainingmanager@kss.hee.nhs.uk](mailto:gptrainingmanager@kss.hee.nhs.uk)

## Section B – Information for Faculty

### Faculty Group Meetings

We welcome Educational Supervisors and those engaged in the BBT programme to attend the BBT Faculty Group meetings. These meetings are a good opportunity to share experience of delivering the BBT programme across HEKSS.

The next meeting will be held: **25<sup>th</sup> February 2015 2.30pm-4.30pm** in **Postgraduate Education Centre, Princess Royal Hospital, RH16 4EX**. We look forward to seeing as many of you as possible. Dial-in facilities will also be available.

### Supervisor Learning Set

The learning set will follow the faculty meeting, 5.00pm-6.00pm. There will be a discussion about integrated care. Please think of a clinical case that crosses specialty boundaries, for us to explore in the learning set. If you have any queries about the learning set, please contact Mary-Rose Shears, BBT Programme Director at [mshears@kss.hee.nhs.uk](mailto:mshears@kss.hee.nhs.uk)

## Section D - Conference/events/courses

**National BBT Meeting** – The recent meeting was held on 16<sup>th</sup> November 2015 in London, there was discussion about the decision not to recruit to BBT in 2016. There was further information from the evaluation, suggesting that trainees exiting from BBT had greater conviction about their career choice and had a wider, more integrated understanding to health care. Three audits were presented by the trainees and the prize was won by a group of trainees looking at applying the “Stopp Start” guidelines.

<b>DATES FOR YOUR DIARY:</b>		
<b>BBT Peer Learning Programme</b>
